

Metrix E-Learning System

The St. Lawrence County One-Stop Career Center in Canton, New York is now able to offer e-learning to job seekers through Metrix, a system developed by NY Wired for Education that utilizes courses developed by o-line industry leaders Skillsoft and Medcom.

Why E-Learning?

- It's Flexible - You can match it to your individual skill level and at a pace to suit your lifestyle.
- It's Convenient – The program is accessible 24/7 from any location with Internet access.
- It's Low Cost - There are no tuition or travel costs involved.

Metrix E-Learning will help you select a “target population,” assess your own knowledge of skills needed for the target population, select courses that will help you acquire the skills needed for your target population, and test yourself on your skills.

Metrix offers desktop courses, including many common desktop applications (MS Word, MS Excel, MS Powerpoint, Quicken, etc.), all of which are offered at various skill levels. In addition, Metrix offers business skills courses such as: Communication, telephone and management skills, and accounting fundamentals.

Metrix E-Learning System Demonstrations are held at the One-Stop Career Center's Computer Lab each Monday at 10:00 AM and 2:00 PM, and each Wednesday at 10:00 AM.

For more information on Metrix, or to reserve your seat in the Computer Lab, please contact the One-Stop Career Center at (315) 386-3276.
